ME

“ *Patty, my name is Merri (Willey) Seidl and Chuck worked with me/us at Scalise-Knysh and later as a sub when he had his own business. Chuck was one of a kind! He could always make us laugh and had great stories. We always heard about Patty and you could tell how much you meant to him. It's never easy losing someone. I am passing along sympathy from all of us here who remember him and will keep him in our hearts and you in our prayers.*

“ *Dear Patti,*

I am heartbroken to hear of Chuck's passing. He was such a wonderful mentor to me and I have so many great memories of working with him.

Lunches at ChiChi's, learning to draw "wiggly-squiggly", his hilarious "cell phone" in his VW bug, his great sense of humor, kindness, and friendship.

He was a treasure.
