“ I was fortunate to know Joe! I was his Pilates instructor. Saturday mornings and later Fridays my day would begin with Joe! He was positive and dedicated to his practice. More than that he had a warm heart and was a grateful person. I look forward to his sessions. And through the years I believe we became friends. In the moments between exercises he would share his golf tips and his life stories. I was very saddened to hear of his passing. I know I am a better person for having known Joe. My condolences are sent to his family - hugs are sent your way.

“ Lots of good times in high school and a great trip to Watkins Glen in 1966.
